
Job Opportunity: Professor of Business Administration (f/m/d) (part-time 50% up to full-time 100%)

Whitecliffe University of Applied Sciences (formerly Berlin International) is state-recognized, institutionally accredited, and offers English-taught degree programs in architecture, design, and business administration. Founded in 2014, Whitecliffe has built a uniquely international profile in Germany, with around 550 students of roughly 93 nationalities and 60 staff members. The language of instruction and administration is English.

For the Faculty of Business Administration (FoB), we are looking for a:
Professor of Business Administration (f/m/d)
(part-time 50% up to full-time 100%)

The Faculty of Business Administration (FoB) offers bachelor's and master's programs in Business Administration. To support our continued growth, we are seeking a professor with an international background and substantial academic experience, evidenced by a strong publication record, as well as relevant professional experience.

Job Profile

We are looking for an engaging educator and active researcher with a solid general foundation in business administration who can connect it to the technological transformation of business. A focus on a field such as Data Science, Machine Learning, Digital Marketing, Finance, Financial Accounting, or Costing/Management Accounting is highly valued.

An important focus of this professorship is the impact of Artificial Intelligence on business. An awareness of how Artificial Intelligence affects business models, management, and leadership is particularly welcome, and we encourage candidates to reflect this in their teaching where relevant. We expect strong links to relevant industries and institutions, alongside an interdisciplinary and intercultural teaching approach.

Responsibilities

The responsibilities correspond to those of a professorship as defined by the Berliner Hochschulgesetz (BerlHG) and Whitecliffe Berlin's internal regulations, including a standard

teaching load of up to 18 SWS per semester at full-time (pro-rated for part-time appointments), research activities, and administrative tasks.

Requirements (§100 Berlin Higher Education Act)

- Doctorate and a strong record of research output
- Minimum 5 years' professional experience, at least 3 of them outside academia
- Broad teaching experience
- Excellent English
- Intercultural awareness and competence preferably from earning university degrees abroad or international work experience
- A strong interest in contributing to the continuous growth of Whitecliffe University

Additional preferred skills

- Language skills, especially in German
- A sound understanding of the higher education systems in Germany and Berlin specifically

Who we are and what we offer

Whitecliffe University of Applied Sciences is a young, growing university of applied sciences immersed in the creative and international spirit of the city of Berlin.

- Whitecliffe's Research Institute offers financial support for research projects
- Our campus is located centrally, easily accessible by public transport and part of a thriving city with many vibrant academic and economic ecosystems relevant to this professorship
- Remuneration in line with sector standards
- Germany-wide public transport ("Deutschlandticket") can be purchased as a job ticket through Whitecliffe
- Diversity is important to us: We welcome applications from people regardless of their ethnic, national, or social background, gender, disability, age, and sexual identity

Please submit your application in PDF format including the following documents:

- A cover letter elaborating on teaching and research interests

-
- A CV with attachments listing relevant practical experiences as well as teaching and research activities (including a list of publications, lectures, awards, and professional memberships). The CV should feature:
 - a list clearly showing previous teaching experience
 - a list clearly showing professional experience outside of a university context
 - Attested certificates of education
 - Any additional documents relevant to the position are welcome (evaluations, certificates, published work samples, etc.)

The position is going to be filled by spring 2027. Residence in Berlin will be expected.

To apply: please send your complete application with all supporting documents by 30 September 2026 to business@berlin-international.de, using the subject line **“FoB26-07_Professorship Application_[Last Name]”**.

Whitecliffe University of Applied Sciences
